NEWS AND UPCOMING EVENTS:

Last year we participated in the first ever **ACVO/MERIAL National Service Dog Eye Exam Day** and are excited to announce that we will be participating this year!

Along with over 140 other ACVO® board-certified veterinary ophthalmologists, Dr. Jones will be donating her time and expertise by performing complimentary eye examinations on service dogs. At our hospital, most of these exams are scheduled for **Wednesday May 6th, 2009**. (If you are unable to attend, please let us know if you have availability on a different day that week, please let us know.)

In order to schedule an appointment, you will need to obtain a referral for your dog(s) through the [ACVO](#) website. Once you have completed the registration process, please contact our office and we will gladly help you schedule your appointment. We look forward to hearing from you!

This site was designed to provide information regarding our clinic animal eye diseases. Our goal is to help care for your pet's eye most professional and caring manner possible. We aim to treat in a manner that we would prefer if it were our own pet. Please feel free to contact us for more information.
